

# DISPOSABLE URETERAL CATHETER

# Disposable Ureteral Catheter

## SCOPE OF APPLICATION

Used to export urine from the patient's bladder out of the body via the urethra and into a urine collection container.

## PRODUCT FEATURES

### Short front end and radiography terminal

- Short front design to avoid unnecessary contact with bladder wall to cause the irritation and reduce the residual of urine; ball-shape radiography terminal design for easy to insert and position.

### Silicon material

- Soft, lubricious, adequate urination, good bio-compatibility, reduce damage and inflammatory reactions.

### Balloon

- The well-proportioned balloon with reinforcing line inhibits urine leakage and prevent slippage as well as facilitate urination.

### Multi-specification available

- Multi-specification for adults and children to meet clinical needs.

### Smooth design

- No segment design between balloon and tube for easy insertion and removal.

Model differentiation	Item	OD	Ballon volume	Length	Model differentiation	Item	OD	Ballon volume	Length
